

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Ch. I

Unified Agenda of Federal Regulatory and Deregulatory Actions—Fall 2011

**AGENCY:** Federal Communications Commission.

**ACTION:** Semiannual regulatory agenda.

**SUMMARY:** Twice a year, in spring and fall, the Commission publishes in the **Federal Register** a list in the Unified Agenda of those major items and other significant proceedings under development or review that pertain to the Regulatory Flexibility Act. See 5 U.S.C. 602. The Unified Agenda also provides the Code of Federal Regulations citations and legal authorities that govern these proceedings.

**ADDRESS:** Federal Communications Commission, 445 12th Street SW., Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Maura McGowan, Telecommunications Specialist, Federal Communications Commission, 445 12th Street SW., Washington, DC 20554, (202) 418-0990.

### SUPPLEMENTARY INFORMATION:

#### *Unified Agenda of Major and Other Significant Proceedings*

The Commission encourages public participation in its rulemaking process. To help keep the public informed of significant rulemaking proceedings, the Commission has prepared a list of important proceedings now in progress. The General Services Administration publishes the Unified Agenda in the **Federal Register** in the spring and fall of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

**Docket Number**--assigned to a proceeding if the Commission has issued either a Notice of Proposed Rulemaking or a Notice of Inquiry concerning the matter under consideration. The Commission has used docket numbers since January 1, 1978. Docket numbers consist of the last two digits of the calendar year in which the docket was established plus a sequential number that begins at 1 with the first docket initiated during a calendar year (e.g., Docket No. 96-1 or Docket No. 99-1). The abbreviation for the responsible bureau usually precedes the docket number, as in "MM Docket No. 96-222," which indicates that the responsible bureau is the Mass Media Bureau (now the Media Bureau). A docket number

consisting of only five digits (e.g., Docket No. 29622) indicates that the docket was established before January 1, 1978.

*Notice of Inquiry (NOI)*--issued by the Commission when it is seeking information on a broad subject or trying to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

*Notice of Proposed Rulemaking (NPRM)*--issued by the Commission when it is proposing a specific change to Commission rules and regulations. Before any changes are actually made, interested parties may submit written comments on the proposed revisions.

*Further Notice of Proposed Rulemaking (FNPRM)*--issued by the Commission when additional comment in the proceeding is sought.

*Memorandum Opinion and Order (MO&O)*--issued by the Commission to deny a petition for rulemaking, conclude an inquiry, modify a decision, or address a petition for reconsideration of a decision.

*Rulemaking (RM) Number*--assigned to a proceeding after the appropriate bureau or office has reviewed a petition for rulemaking, but before the Commission has taken action on the petition.

*Report and Order (R&O)*--issued by the Commission to state a new or amended rule or state that the Commission rules and regulations will not be revised.

**NAME: Marlene H. Dortch,**

*Secretary, Federal Communications Commission.*

## CONSUMER AND GOVERNMENTAL AFFAIRS BUREAU—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
497	Implementation of the Telecommunications Act of 1996; Access to Telecommunications Service, Telecommunications Equipment, and Customer Premises Equipment by Persons With Disabilities	3060--AG58

498	Rules and Regulations Implementing the Telephone Consumer Protection Act (TCPA) of 1991 (CG Docket No. 02-278)	3060–AI14
499	Rules and Regulations Implementing Section 225 of the Communications Act (Telecommunications Relay Service) (CG Docket No. 03-123)	3060–AI15
500	Consumer Information and Disclosure and Truth in Billing and Billing Format	3060–AI61
501	Closed Captioning of Video Programming ( <b>Section 610 Review</b> )	3060–AI72
502	Accessibility of Programming Providing Emergency Information	3060–AI75
503	Empowering Consumers to Avoid Bill Shock (Docket No. 10-207)	3060–AJ51

#### OFFICE OF ENGINEERING AND TECHNOLOGY—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
504	New Advanced Wireless Services (ET Docket No. 00-258)	3060–AH65
505	Exposure to Radiofrequency Electromagnetic Fields	3060–AI17
506	Unlicensed Operation in the TV Broadcast Bands (ET Docket No. 04-186)	3060–AI52
507	Fixed and Mobile Services in the Mobile Satellite Service (ET Docket No. 10-142)	3060–AJ46
508	Innovation in the Broadcast Television Bands; ET Docket No. 10-235	3060–AJ57
509	Radio Experimentation and Market Trials Under Part 5 of the Commission's Rules and Streamlining Other Related Rules; ET Docket No. 10-236	3060–AJ62
510	Operation of Radar Systems in the 76-77 GHz Band; ET Docket	3060–AJ68

	No. 11-90	
--	-----------	--

### INTERNATIONAL BUREAU—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
511	Establishment of Rules and Policies for the Digital Audio Radio Satellite Service in the 2310-2360 MHz Frequency Band (IB Docket No. 95-91; GEN Docket No. 90-357)	3060–AF93
512	Space Station Licensing Reform (IB Docket No. 02-34)	3060–AH98
513	Reporting Requirements for U.S. Providers of International Telecommunications Services (IB Docket No. 04-112)	3060–AI42
514	Amendment of the Commission's Rules To Allocate Spectrum and Adopt Service Rules and Procedures To Govern the Use of Vehicle-Mounted Earth Stations (IB Docket No. 07-101)	3060–AI90

### MEDIA BUREAU—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
515	Competitive Availability of Navigation Devices (CS Docket No. 97-80)	3060–AG28
516	Second Periodic Review of Rules and Policies Affecting the Conversion to DTV (MB Docket 03-15)	3060–AH54
517	Broadcast Ownership Rules	3060–AH97
518	Establishment of Rules for Digital Low Power Television, Television Translator, and Television Booster Stations (MB	3060–AI38

	Docket No. 03-185)	
519	Joint Sales Agreements in Local Television Markets (MB Docket No. 04-256)	3060–AI55
520	Program Access Rules—Sunset of Exclusive Contracts Prohibition and Examination of Programming Tying Arrangements (MB Docket Nos. 07-29, 07-198)	3060–AI87
521	Third Periodic Review of the Commission's Rules and Policies Affecting the Conversion to Digital Television (MB Docket No. 07-91)	3060–AI89
522	Broadcast Localism (MB Docket No. 04-233)	3060–AJ04
523	Creating a Low Power Radio Service (MM Docket No. 99-25)	3060–AJ07
524	Policies To Promote Rural Radio Service and To Streamline Allotment and Assignment Procedures (MB Docket No. 09-52)	3060–AJ23
525	Promoting Diversification of Ownership in the Broadcast Services (MB Docket No. 07-294)	3060–AJ27
526	Amendment of the Commission's Rules Related to Retransmission Consent; MB Docket No. 10-71	3060–AJ55
527	Video Description: Implementation of the Twenty-First Century Communications and Video Accessibility Act of 2010; MB Docket No.11-43	3060–AJ56

#### OFFICE OF MANAGING DIRECTOR—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
528	Assessment and Collection of Regulatory Fees	3060–AI79
529	Amendment of Part 1 of the Commission's Rules, Concerning	3060–AJ54

	Practice and Procedure, Amendment of CORES Registration System; MD Docket No. 10-234	
--	--	--

### PUBLIC SAFETY AND HOMELAND SECURITY BUREAU—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
530	Revision of the Rules To Ensure Compatibility With Enhanced 911 Emergency Calling Systems	3060–AG34
531	Enhanced 911 Services for Wireline	3060–AG60
532	In the Matter of the Communications Assistance for Law Enforcement Act	3060–AG74
533	Development of Operational, Technical, and Spectrum Requirements for Public Safety Communications Requirements	3060–AG85
534	Implementation of 911 Act	3060–AH90
535	Commission Rules Concerning Disruptions to Communications	3060–AI22
536	E911 Requirements for IP-Enabled Service Providers	3060–AI62
537	Stolen Vehicle Recovery System (SVRS)	3060–AJ01
538	Commercial Mobile Alert System	3060–AJ03
539	Emergency Alert System	3060–AJ33
540	Wireless E911 Location Accuracy Requirements; PS Docket No. 07-114	3060–AJ52

### WIRELESS TELECOMMUNICATIONS BUREAU—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number

541	Amendment of Parts 13 and 80 of the Commission's Rules Governing Maritime Communications	3060–AH55
542	Reexamination of Roaming Obligations of Commercial Mobile Radio Service Providers	3060–AH83
543	Review of Part 87 of the Commission's Rules Concerning Aviation (WT Docket No. 01-289)	3060–AI35
544	Implementation of the Commercial Spectrum Enhancement Act (CSEA) and Modernization of the Commission's Competitive Bidding Rules and Procedures (WT Docket No. 05-211)	3060–AI88
545	Facilitating the Provision of Fixed and Mobile Broadband Access, Educational and Other Advanced Services in the 2150-2162 and 2500-2690 MHz Bands	3060–AJ12
546	Amendment of the Rules Regarding Maritime Automatic Identification Systems (WT Docket No. 04-344)	3060–AJ16
547	Service Rules for Advanced Wireless Services in the 2155-2175 MHz Band	3060–AJ19
548	Service Rules for Advanced Wireless Services in the 1915 to 1920 MHz, 1995 to 2000 MHz, 2020 to 2025 MHz, and 2175 to 2180 MHz Bands	3060–AJ20
549	Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698-806 MHz Band, WT Docket No. 08-166; Public Interest Spectrum Coalition, Petition for Rulemaking Regarding Low Power Auxiliary	3060–AJ21
550	Amendment of the Commission's Rules To Improve Public Safety Communications in the 800 MHz Band, and To Consolidate the 800 MHz and 900 MHz Business and Industrial/Land Transportation Pool Channels	3060–AJ22

551	Amendment of Part 101 to Accommodate 30 MHz Channels in the 6525-6875 MHz Band and Provide Conditional Authorization on Channels in the 21.8-22.0 and 23.0-23.2 GHz Band (WT Docket No. 04-114)	3060–AJ28
552	In the Matter of Service Rules for the 698 to 746, 747 to 762 and 777 to 792 MHz Bands	3060–AJ35
553	National Environmental Act Compliance for Proposed Tower Registrations; In the Matter of Effects on Migratory Birds	3060–AJ36
554	Amendment of Part 90 of the Commission's Rules	3060–AJ37
555	Amendment of Part 101 of the Commission's Rules for Microwave Use and Broadcast Auxiliary Service Flexibility	3060–AJ47
556	2004 and 2006 Biennial Regulatory Reviews—Streamlining and Other Revisions of the Commission's Rules Governing Construction, Marking, and Lighting of Antenna Structures	3060–AJ50
557	Universal Service Reform Mobility Fund (WT Docket No. 10-208)	3060–AJ58
558	Fixed and Mobile Services in the Mobile Satellite Service Bands at 1525-1559 MHz and 1626.5-1660.5 MHz, 1610-1626.5 MHz and 2483.5-2500 MHz, and 2000-2020 MHz and 2180-2200 MHz	3060–AJ59

#### WIRELINE COMPETITION BUREAU—Long-Term Actions

Sequence Number	Title	Regulation Identifier Number
559	Implementation of the Universal Service Portions of the 1996 Telecommunications Act	3060–AF85
560	2000 Biennial Regulatory Review—Telecommunications Service Quality Reporting Requirements	3060–AH72

561	Access Charge Reform and Universal Service Reform	3060–AH74
562	National Exchange Carrier Association Petition	3060–AI47
563	IP-Enabled Services	3060–AI48
564	Establishing Just and Reasonable Rates for Local Exchange Carriers (WC Docket No. 07-135)	3060–AJ02
565	Jurisdictional Separations	3060–AJ06
566	Service Quality, Customer Satisfaction, Infrastructure and Operating Data Gathering (WC Docket Nos. 08-190, 07-139, 07-204, 07-273, 07-21)	3060–AJ14
567	Form 477; Development of Nationwide Broadband Data To Evaluate Reasonable and Timely Deployment of Advanced Services to All Americans	3060–AJ15
568	Preserving the Open Internet; Broadband Industry Practices	3060–AJ30
569	Local Number Portability Porting Interval and Validation Requirements (WC Docket No 07-244)	3060–AJ32
570	Electronic Tariff Filing System (ETFS); WC Docket No. 10-141	3060–AJ41
571	Implementation of Section 224 of the Act; A National Broadband Plan for Our Future; WC Docket No. 07-245, GN Docket No. 09-51	3060–AJ64

**498. RULES AND REGULATIONS IMPLEMENTING THE TELEPHONE CONSUMER PROTECTION ACT (TCPA) OF 1991 (CG DOCKET NO. 02–278)**

**Legal Authority:** 47 USC 227

**Abstract:** On July 3, 2003, the Commission released a Report and Order establishing, along with the FTC, a national do-not-call registry. The Commission's Report and Order also adopted rules on the use of predictive dialers, the transmission of caller ID information by telemarketers, and the sending of unsolicited fax advertisements.

On September 21, 2004, the Commission released an Order amending existing safe harbor rules for telemarketers subject to the do-not-call registry to require such telemarketers to access the do-not-call list every 31 days, rather than every 3 months.

On April 5, 2006, the Commission adopted a Report and Order and Third Order on Reconsideration amending its facsimile advertising rules to implement the Junk Fax Protection Act of 2005. On October 14, 2008, the Commission released an Order on Reconsideration addressing certain issues raised in petitions for reconsideration and/or clarification of the Report and Order and Third Order on Reconsideration.

On January 4, 2008, the Commission released a Declaratory Ruling, clarifying that autodialed and prerecorded message calls to wireless numbers that are provided by the called party to a creditor in connection with an existing debt are permissible as calls made with the “prior express consent” of the called party.

Following a December 4, 2007 NPRM, on June 17, 2008, the Commission released a Report and Order amending its rules to require sellers and/or telemarketers to honor registrations with the National Do-Not-

Call Registry indefinitely, unless the registration is cancelled by the consumer or the number is removed by the database administrator.

On January 22, 2010, the Commission released an NPRM proposing to require sellers and telemarketers to obtain express written consent from recipients before making prerecorded telemarketing calls, commonly known as “robocalls,” even when the caller has an established business relationship with the consumer. The proposals also, among other things, would require that prerecorded telemarketing calls include an automated, interactive mechanism by which a consumer may “opt out” of receiving future prerecorded messages from a seller or telemarketer.

**499. RULES AND REGULATIONS IMPLEMENTING SECTION 225 OF THE COMMUNICATIONS ACT  
(TELECOMMUNICATIONS RELAY SERVICE) (CG DOCKET NO. 03-123)**

**Legal Authority:** 47 USC 151; 47 USC 154; 47 USC 225

**Abstract:** This proceeding established a new docket flowing from the previous telecommunications relay service (TRS) history, CC Docket No. 98-67. This proceeding continues the Commission's inquiry into improving the quality of TRS and furthering the goal of functional equivalency, consistent with Congress' mandate that TRS regulations encourage the use of existing technology and not discourage or impair the development of new technology. In this docket, the Commission explores ways to improve emergency preparedness for TRS facilities and services, new TRS technologies, public access to information and outreach, and issues related to payments from the Interstate TRS Fund.

## 500. CONSUMER INFORMATION AND DISCLOSURE AND TRUTH IN BILLING AND BILLING FORMAT

**Legal Authority:** 47 USC 201; 47 USC 258

**Abstract:** In 1999, the Commission adopted truth-in-billing rules to address concerns that there is consumer confusion relating to billing for telecommunications services. On March 18, 2005, the

Commission released an Order and FNPRM to further facilitate the ability of telephone consumers to make informed choices among competitive service offerings.

On August 28, 2009, the Commission released a Notice of Inquiry which asks questions about information available to consumers at all stages of the purchasing process for all communications services, including (1) choosing a provider; (2) choosing a service plan; (3) managing use of the service plan; and (4) deciding whether and when to switch an existing provider or plan.

On October 14, 2010, the Commission released a Notice of Proposed Rulemaking proposing rules that would require mobile service providers to provide usage alerts and information that will assist consumers in avoiding unexpected charges on their bills.

On July 12, 2011, the Commission released an NPRM that would assist Consumers in detecting and preventing the placement of unauthorized charges on their telephone bills, an unlawful and fraudulent practice, commonly referred to as “cramming.”

## **501. CLOSED CAPTIONING OF VIDEO PROGRAMMING (SECTION 610 REVIEW)**

**Legal Authority:** 47 USC 613

**Abstract:** The Commission's closed captioning rules are designed to make video programming more accessible to deaf and hard of hearing Americans. This proceeding resolves some issues regarding the Commission's closed captioning rules that were raised for comment in 2005, and also seeks comment on how a certain exemption from the closed captioning rules should be applied to digital multicast broadcast channels.

### 504. NEW ADVANCED WIRELESS SERVICES (ET DOCKET NO. 00–258)

**Legal Authority:** 47 USC 154(i); 47 USC 157(a); 47 USC 303(c); 47 USC 303(f); 47 USC 303(g); 47 USC 303(r)

**Abstract:** This proceeding explores the possible uses of frequency bands below 3 GHz to support the introduction of new advanced wireless services, including third generations as well as future generations

of wireless systems. Advanced wireless systems could provide for a wide range of voice data and broadband services over a variety of mobile and fixed networks.

The Third Notice of Proposed Rulemaking discusses the frequency bands that are still under consideration in this proceeding and invites additional comments on their disposition. Specifically, it addresses the Unlicensed Personal Communications Service (UPCS) band at 1910-1930 MHz, the Multipoint Distribution Service (MDS) spectrum at 2155-2160/62 MHz bands, the Emerging Technology spectrum, at 2160-2165 MHz, and the bands reallocated from MSS 91990-2000 MHz, 2020-2025 MHz, and 2165-2180 MHz. We seek comment on these bands with respect to using them for paired or unpaired Advanced Wireless Service (AWS) operations or as relocation spectrum for existing services.

The 7th Report and Order facilitates the introduction of Advanced Wireless Service (AWS) in the band 1710-1755 MHz—an integral part of a 90 MHz spectrum allocation recently reallocated to allow for such new and innovative wireless services. We largely adopt the proposals set forth in our recent AWS Fourth NPRM in this proceeding that are designed to clear the 1710-1755 MHz band of incumbent Federal Government operations that would otherwise impede the development of new nationwide AWS services. These actions are consistent with previous actions in this proceeding and with the United States Department of Commerce, National Telecommunications and Information Administration (NTIA) 2002 Viability Assessment, which addressed relocation and reaccommodation options for Federal Government operations in the band.

The 8th Report and Order reallocated the 2155-2160 MHz band for Fixed and Mobile services and designates the 2155-2175 MHz band for Advanced Wireless Service (AWS) use. This proceeding continues the Commission's ongoing efforts to promote spectrum utilization and efficiency with regard to the provision of new services, including Advanced Wireless Services.

The Order requires Broadband Radio Service (BRS) licensees in the 2150-2160/62 MHz band to provide information on the construction status and operational parameters of each incumbent BRS system that would be the subject of relocation.

The Notice of Proposed Rule Making requested comments on the specific relocation procedures applicable to Broadband Radio Service (BRS) operations in the 2150-2160/62 MHz band, which the Commission recently decided will be relocated to the newly restructured 2495-2690 MHz band. The Commission also requested comments on the specific relocation procedures applicable to Fixed Microwave Service (FS) operations in the 2160-2175 MHz band.

The Office of Engineering and Technology (OET) and the Wireless Telecommunications Bureau (WTB) set forth the specific data that Broadband Radio Service (BRS) licensees in the 2150-2160/62 MHz band must file along with the deadline date and procedures for filing this data on the Commission's Universal Licensing System (ULS). The data will assist in determining future AWS licensee's relocation obligations.

The 9th Report and Order established procedures for the relocation of Broadband Radio Service (BRS) operations from the 2150-2160/62 MHz band, as well as for the relocation of Fixed Microwave Service (FS) operations from the 2160-2175 MHz band, and modified existing relocation procedures for the 2110-2150 MHz and 2175-2180 MHz bands. It also established cost-sharing rules to identify the reimbursement obligations for Advanced Wireless Service (AWS) and Mobile Satellite Service (MSS) entrants benefiting from the relocation of incumbent FS operations in the 2110-2150 MHz and 2160-2200 MHz bands and AWS entrants benefiting from the relocation of BRS incumbents in the 2150-2160/62 MHz band. The Commission continues its ongoing efforts to promote spectrum utilization and efficiency with regard to the provision of new services, including AWS. The Order dismisses a petition for reconsideration filed by the Wireless Communications Association International, Inc. (WCA) as moot.

Two petitions for Reconsideration were filed in response to the 9th Report and Order.

## **506. UNLICENSED OPERATION IN THE TV BROADCAST BANDS (ET DOCKET NO. 04–186)**

**Legal Authority:** 47 USC 154(i); 47 USC 302; 47 USC 303(e) and 303(f); 47 USC 303(r); 47 USC 307

**Abstract:** The Commission adopted rules to allow unlicensed radio transmitters to operate in the broadcast television spectrum at locations where that spectrum is not being used by licensed services (this unused TV spectrum is often termed “white spaces”). This action will make a significant amount of spectrum available for new and innovative products and services, including broadband data and other services for businesses and consumers. The actions taken are a conservative first step that includes many safeguards to prevent harmful interference to incumbent communications services. Moreover, the Commission will closely oversee the development and introduction of these devices to the market and will take whatever actions may be necessary to avoid, and if necessary correct, any interference that may occur.

The Second Memorandum Opinion and Order finalizes rules to make the unused spectrum in the TV bands available for unlicensed broadband wireless devices. This particular spectrum has excellent propagation characteristics that allow signals to reach farther and penetrate walls and other structures. Access to this spectrum could enable more powerful public Internet connections - - super Wi-Fi hot spots - - with extended range, fewer dead spots, and improved individual speeds as a result of reduced congestion on existing networks. This type of “opportunistic use” of spectrum has great potential for enabling access to other spectrum bands and improving spectrum efficiency. The Commission’s actions here are expected to spur investment and innovation in applications and devices that will be used not only in the TV band but eventually in other frequency bands as well.

**507. FIXED AND MOBILE SERVICES IN THE MOBILE SATELLITE SERVICE (ET DOCKET NO. 10–142)**

**Legal Authority:** 47 USC 154 (i) and 301; 47 USC 303(c) and 303(f); 47 USC 303(r) and 303(y); 47 USC 310

**Abstract:** The Notice of Proposed Rule Making proposed to take a number of actions to further the provision of terrestrial broadband services in the MSS bands. In the 2 GHz MSS band, the Commission proposed to add co-primary Fixed and Mobile allocations to the existing Mobile-Satellite allocation. This would lay the groundwork for providing additional flexibility in use of the 2 GHz spectrum in the future. The Commission also proposed to apply the terrestrial secondary market spectrum leasing rules and procedures to transactions involving terrestrial use of the MSS spectrum in the 2 GHz, Big LEO, and L-bands in order to create greater certainty and regulatory parity with bands licensed for terrestrial broadband service.

The Commission also asked, in a Notice of Inquiry, about approaches for creating opportunities for full use of the 2 GHz band for stand-alone terrestrial uses. The Commission requested comment on ways to promote innovation and investment throughout the MSS bands while also ensuring market-wide mobile satellite capability to serve important needs like disaster recovery and rural access.

In the Report and Order the Commission amended its rules to make additional spectrum available for new investment in mobile broadband networks while also ensuring that the United States maintains robust mobile satellite service capabilities. First, the Commission adds co-primary Fixed and Mobile allocations to the Mobile Satellite Service (MSS) 2 GHz band, consistent with the International Table of Allocations, allowing more flexible use of the band, including for terrestrial broadband services, in the future. Second, to create greater predictability and regulatory parity with the bands licensed for terrestrial mobile broadband service, the Commission extends its existing secondary market spectrum manager spectrum leasing policies, procedures, and rules that currently apply to wireless terrestrial services to terrestrial services provided using the Ancillary Terrestrial Component (ATC) of an MSS system.

Petitions for Reconsideration have been filed in the Commission's rulemaking proceeding concerning Fixed and Mobile Services in the Mobile Satellite Service Bands at 1525-1559 MHz and 1626.5-1660.5 MHz, 1610-1626.5 MHz and 2483.5-2500 MHz, and 2000-2020 MHz and 2180-2200 MHz and published pursuant to 47 CFR 1.429(e). See 1.4(b)(1) of the Commission's rules.

## **508. INNOVATION IN THE BROADCAST TELEVISION BANDS; ET DOCKET NO. 10-235**

**Legal Authority:** 47 USC 154(i); 47 USC 301; 47 USC 302; 47 USC 303(e); 47 USC 303(f); 47 USC 303(r)

**Abstract:** The Commission initiated this proceeding to further its ongoing commitment to addressing America's growing demand for wireless broadband services, spur ongoing innovation and investment in mobile and ensure that America keeps pace with the global wireless revolution, by making a significant amount of new spectrum available for broadband. The approach proposed is consistent with the goal set forth in the National Broadband Plan (the Plan) to repropose up to 120 megahertz from the broadcast television bands for new wireless broadband uses through, in part, voluntary contributions of spectrum to

an incentive auction. Reallocation of this spectrum as proposed will provide the necessary flexibility for meeting the requirements of these new applications.

**509. RADIO EXPERIMENTATION AND MARKET TRIALS UNDER PART 5 OF THE COMMISSION'S RULES AND STREAMLINING OTHER RELATED RULES; ET DOCKET NO. 10–236**

**Legal Authority:** 47 USC 154(i); 47 USC 301 and 303

**Abstract:** The Commission initiated this proceeding to promote innovation and efficiency in spectrum use in the Experimental Radio Service (ERS). For many years, the ERS has provided fertile ground for testing innovative ideas that have led to new services and new devices for all sectors of the economy. The Commission proposes to leverage the power of experimental radio licensing to accelerate the rate at which these ideas transform from prototypes to consumer devices and services. Its goal is to inspire researchers to dream, discover and deliver the innovations that push the boundaries of the broadband ecosystem. The resulting advancements in devices and services available to the American public and greater spectrum efficiency over the long term will promote economic growth, global competitiveness, and a better way of life for all America

#### **510. • OPERATION OF RADAR SYSTEMS IN THE 76-77 GHZ BAND; ET DOCKET NO. 11-90**

**Legal Authority:** 47 USC 151; 47 USC 152; 47 USC 154(i); 47 USC 301; 47 USC 302; 47 USC 303(f)

**Abstract:** The Commission proposes to amend its rules to enable enhanced vehicular radar technologies in the 76-77 GHz band to improve collision avoidance and driver safety. Vehicular radars can determine the exact distance and relative speed of objects in front of, beside, or behind a car to improve the driver's ability to perceive objects under bad visibility conditions or objects that are in blind spots. These modifications to the rules will provide more efficient use of spectrum, and enable the automotive and fixed radar application industries to develop enhanced safety measures for drivers and the general public. The Commission takes this action in response to petitions for rulemaking filed by Toyota Motor Corporation ("TMC") and Era Systems Corporation ("Era").

## **512. SPACE STATION LICENSING REFORM (IB DOCKET NO. 02–34)**

**Legal Authority:** 47 USC 154(i); 47 USC 157; 47 USC 303(c); 47 USC 303(g); . . .

**Abstract:** The Commission adopted a Notice of Proposed Rulemaking (NPRM) to streamline its procedures for reviewing satellite license applications. Before 2003, the Commission used processing rounds to review those applications. In a processing round, when an application is filed, the International Bureau (Bureau) issued a public notice establishing a cut-off date for other mutually exclusive satellite applications, and then considered all those applications together. In cases where sufficient spectrum to accommodate all the application was not available, the Bureau directed the applicants to negotiate a mutually agreeable solution. Those negotiations took a long time, and delayed provision of satellite services to the public.

The NPRM invited comment on two alternatives for expediting the satellite application process. One alternative was to replace the processing round procedure with a “first-come, first-served” procedure that would allow the Bureau to issue a satellite license to the first party filing a complete, acceptable application. The other alternative was to streamline the processing round procedure by adopting one or more of the following proposals: (1) Place a time limit on negotiations; (2) established criteria to select among competing applicants; (3) divide the available spectrum evenly among the applicants.

In the First Report and Order in this proceeding, the Commission determined that different procedures were better-suited for different kinds of satellite applications. For most geostationary orbit (GSO) satellite applications, the Commission adopted a first-come, first-served approach. For most non-geostationary orbit (NGSO) satellite applications, the Commission adopted a procedure in which the available spectrum is divided evenly among the qualified applicants. The Commission also adopted measures to discourage applicants from filing speculative applications, including a bond requirement, payable if a licensee misses a milestone. The bond amounts originally were \$5 million for each GSO satellite, and \$7.5 million for each NGSO satellite system. These were interim amounts. Concurrently with the First Report and Order, the Commission adopted an FNPRM to determine whether to revise the bond amounts on a long-term basis.

In the Second Report and Order, the Commission adopted a streamlined procedure for certain kinds of satellite license modification requests.

In the Third Report and Order, the Commission adopted a standardized application form for satellite licenses, and adopted a mandatory electronic filing requirement for certain satellite applications.

In the Fourth Report and Order, the Commission revised the bond amounts based on the record developed in response to FNPRM. The bond amounts are now \$3 million for each GSO satellite, and \$5 million for each NGSO satellite system.

### **513. REPORTING REQUIREMENTS FOR U.S. PROVIDERS OF INTERNATIONAL TELECOMMUNICATIONS SERVICES (IB DOCKET NO. 04–112)**

**Legal Authority:** 47 USC 151; 47 USC 154; 47 USC 161; 47 USC 201 to 205; . . .

**Abstract:** FCC is reviewing the reporting requirements to which carriers providing U.S.-international services are subject under 47 CFR part 43. The FCC adopted a First Report and Order that eliminated certain of those requirements. Specifically, it eliminated the quarterly reporting requirements for large carriers and foreign-affiliated switched resale carriers, 47 CFR 43.61(b), (c); the circuit addition report, 47 CFR 63.23(e); the division of telegraph tolls report, 47 CFR 43.53; and, requirement to report separately for U.S off-shore points, 43.61(a), 43.82(a). The FCC also adopted a Further Notice of Proposed Rulemaking that seeks comment additional reforms to further streamline and modernize the reporting requirements. The FCC also seeks comments on whether providers of interconnected Voice over Internet

Protocol (VoIP) should submit data regarding their provision of international telephone services and whether non-common carrier international circuits should be reported.

**514. AMENDMENT OF THE COMMISSION'S RULES TO ALLOCATE SPECTRUM AND ADOPT SERVICE RULES AND PROCEDURES TO GOVERN THE USE OF VEHICLE-MOUNTED EARTH STATIONS (IB DOCKET NO. 07–101)**

**Legal Authority:** 47 USC 151; 47 USC 154(i) and (j); 47 USC 157(a); 47 USC 301; 47 USC 303 (c); 47 USC 303 (f); 47 USC 303 (g); 47 USC 303 (r); 47 USC 303 (y); 47 USC 308

**Abstract:** The Commission seeks comment on the proposed amendment of parts 2 and 25 of the Commission's rules to allocate spectrum for use with Vehicle-Mounted Earth Stations (VMES) in the Fixed-Satellite Service in the Ku-band uplink at 14.0-14.5 GHz and Ku-band downlink 11.72-12.2 GHz on a primary basis, and in the extended Ku-band downlink at 10.95-11.2 GHz and 11.45-11.7 GHz on a non-protected basis, and to adopt Ku-band VMES licensing and service rules modeled on the FCC's rules for

Ku-band Earth Stations on Vessels (ESVs). The record in this proceeding will provide a basis for Commission action to facilitate introduction of this proposed service.

**515. COMPETITIVE AVAILABILITY OF NAVIGATION DEVICES (CS DOCKET NO. 97–80)**

**Legal Authority:** 47 USC 549

**Abstract:** The Commission has adopted rules to address the mandate expressed in section 629 of the Communications Act to ensure the commercial availability of “navigation devices,” the equipment used to access video programming and other services from multichannel video programming systems.

Specifically, the Commission required MVPDs to make available by, a security element (known as a “cablecard”) separate from the basic navigation device (e.g., cable set-top boxes, digital video recorders,

and television receivers with navigation capabilities). The separation of the security element from the host device required by this rule (referred to as the “integration ban”) was designed to enable unaffiliated manufacturers, retailers, and other vendors to commercially market host devices while allowing MVPDs to retain control over their system security. Also, in this proceeding, the Commission adopted unidirectional “plug and play” rules, to govern compatibility between MVPDs and navigation devices manufactured by consumer electronics manufacturers not affiliated with cable operators.

In the most recent action, the Commission made rule changes to improve the operation of the CableCard regime.

## **516. SECOND PERIODIC REVIEW OF RULES AND POLICIES AFFECTING THE CONVERSION TO DTV (MB DOCKET 03–15)**

**Legal Authority:** 47 USC 4(i) and 4(j); 47 USC 303(r); 47 USC 307; 47 USC 309; 47 USC 336

**Abstract:** On January 18, 2001, the Commission adopted a Report and Order (R&O) and Further Notice of Proposed Rulemaking, addressing a number of issues related to the conversion of the nation's broadcast television system from analog to digital television. The Second Report and Order resolved several major technical issues including the issue of receiver performance standards, DTV tuners, and revisions to certain components of the DTV transmission standard. A subsequent NPRM commenced the Commission's second periodic review of the progress of the digital television conversion. The resulting R&O adopted a multi-step process to create a new DTV table of allotments and authorizations. Also in the R&O, the Commission adopted replication and maximization deadlines for DTV broadcasters and updated rules in recognition revisions to broadcast transmission standards.

The Second R&O adopts disclosure requirements for televisions that do not include a digital tuner.

## 517. BROADCAST OWNERSHIP RULES

**Legal Authority:** 47 USC 151; 47 USC 152(a); 47 USC 154(i); 47 USC 303; 47 USC 307; 47 USC 309 and 310

**Abstract:** Section 202(h) of the Telecommunications Act of 1996 requires the Commission to review its ownership rules every four years and determine whether any such rules are necessary in the public interest as the result of competition.

In 2002, the Commission undertook a comprehensive review of its broadcast multiple and cross-ownership limits examining: cross-ownership of TV and radio stations; local TV ownership limits; national TV cap; and dual network rule.

The Report and Order replaced the newspaper/broadcast cross-ownership and radio and TV rules with a tiered approach based on the number of television stations in a market. In June 2006, the Commission adopted a Further Notice of Proposed Rulemaking initiating the 2006 review of the broadcast ownership rules. The further notice also sought comment on how to address the issues raised by the Third Circuit. Additional questions are raised for comment in a Second Further Notice of Proposed Rulemaking.

In the Report and Order and Order on Reconsideration, the Commission adopted rule changes regarding newspaper/broadcast cross-ownership, but otherwise generally retained the other broadcast ownership rules currently in effect.

For the 2010 quadrennial review, five of the Commission's media are the subject of review: the local TV ownership rule; the local radio ownership rule; the newspaper broadcast cross-ownership rule; the radio/TV cross-ownership rule; and the dual network rule.

**518. ESTABLISHMENT OF RULES FOR DIGITAL LOW POWER TELEVISION, TELEVISION  
TRANSLATOR, AND TELEVISION BOOSTER STATIONS (MB DOCKET NO. 03–185)**

**Legal Authority:** 47 USC 309; 47 USC 336

**Abstract:** This proceeding initiates the digital television conversion for low power television (LPTV) and television translator stations. The rules and policies adopted as a result of this proceeding provide the framework for these stations' conversion from analog to digital broadcasting. The Report and Order adopts definitions and permissible use provisions for digital TV translator and LPTV stations. The Second Report and Order takes steps to resolve the remaining issues in order to complete the low power television digital transition.

**Legal Authority:** 47 USC 151 to 152(a); 47 USC 154(i); 47 USC 303; . . .

**Abstract:** A joint sales agreement (JSA) is an agreement with a licensee of a brokered station that authorizes a broker to sell some or all of the advertising time for the brokered station in return for a fee or percentage of revenues paid to the licensee. The Commission has sought comment on whether TV JSAs

should be attributed for purposes of determining compliance with the Commission's multiple ownership rules.

**520. PROGRAM ACCESS RULES—SUNSET OF EXCLUSIVE CONTRACTS PROHIBITION AND EXAMINATION OF PROGRAMMING TYING ARRANGEMENTS (MB DOCKET NOS. 07–29, 07–198)**

**Legal Authority:** 47 USC 548

**Abstract:** The program access provisions of the Communications Act (sec. 628) generally prohibit exclusive contracts for satellite delivered programming between programmers in which a cable operator has an attributable interest (vertically integrated programmers) and cable operators. This limitation was set to expire on October 5, 2007, unless circumstances in the video programming marketplace indicate that an extension of the prohibition continues “to be necessary to preserve and protect competition and diversity in the distribution of video programming.” The October 2007 Report and Order concluded the prohibition continues to be necessary, and accordingly, retained it until October 5, 2012. The accompanying Notice of Proposed Rulemaking (NPRM) sought comment on revisions to the Commission's program access and retransmission consent rules. The associated Report and Order adopted rules to permit complainants to pursue program access claims regarding terrestrially delivered cable affiliated programming.

## **521. THIRD PERIODIC REVIEW OF THE COMMISSION'S RULES AND POLICIES AFFECTING THE CONVERSION TO DIGITAL TELEVISION (MB DOCKET NO. 07–91)**

**Legal Authority:** 47 USC 151; 47 USC 154(i); 47 USC 154(j); 47 USC 301 to 303; 47 USC 307 to 309;  
47 USC 312; 47 USC 316; 47 USC 318 and 319; 47 USC 324 and 325; 47 USC 336 and 337

**Abstract:** Congress has mandated that after February 17, 2009, full-power broadcast stations must transmit only in digital signals, and may no longer transmit analog signals. This proceeding is the Commission's third periodic review of the transition of the nation's broadcast television system from analog to digital television (DTV). The Commission conducts these periodic reviews in order to assess the progress of the transition and make any necessary adjustments to the Commission's rules and policies to facilitate the introduction of DTV service and the recovery of spectrum at the end of the

transition. In this review, the Commission considers how to ensure that broadcasters complete construction of their final post-transition (digital) facilities by the statutory deadline.

## **522. BROADCAST LOCALISM (MB DOCKET NO. 04–233)**

**Legal Authority:** 47 USC 154(i); 47 USC 303; 47 USC 532; 47 USC 536

**Abstract:** The concept of localism has been a cornerstone of broadcast regulation. The Commission has consistently held that as temporary trustee of the public's airwaves, broadcasters are obligated to operate their stations to serve the public interest. Specifically, broadcasters are required to air programming responsive to the needs and issues of the people in their licensed communities. The Commission opened this proceeding to seek input on a number of issues related to broadcast localism.

### **523. CREATING A LOW POWER RADIO SERVICE (MM DOCKET NO. 99–25)**

**Legal Authority:** 47 USC 151 to 152; 47 USC 154(i); 47 USC 303; 47 USC 403; 47 USC 405

**Abstract:** This proceeding was initiated to establish a new noncommercial educational low power FM radio service for non-profit community organizations and public safety entities. In January 2000, the Commission adopted a Report and Order establishing two classes of LPFM stations, 100 watt (LP100) and 10 watt (LP10) facilities, with service radii of approximately 3.5 miles and 1-2 miles, respectively. The Report and Order also established ownership and eligibility rules for the LPFM service. The Commission generally restricted ownership to entities with no attributable interest in any other broadcast station or other media. To choose among entities filing mutually exclusive applications for LPFM licenses, the Commission established a point system favoring local ownership and locally-originated programming. The Report and Order imposed separation requirements for LPFM with respect to full power stations operating on co-, first- and second-adjacent and intermediate frequency (IF) channels.

In a Further Notice issued in 2005, the Commission reexamined some of its rules governing the LPFM service, noting that the rules may need adjustment in order to ensure that the Commission maximizes the value of the LPFM service without harming the interests of full-power FM stations or other Commission licensees. The Commission sought comment on a number of issues with respect to LPFM ownership restrictions and eligibility.

The Third Report and Order resolves issues raised in the Further Notice. The accompanying Second Further Notice of Proposed Rulemaking (FNPRM) considers rule changes to avoid the potential loss of LPFM stations.

In the third FNPRM, the Commission seeks comment on the impact of the Local Community Radio Act on the procedures previously adopted.

**524. POLICIES TO PROMOTE RURAL RADIO SERVICE AND TO STREAMLINE ALLOTMENT AND  
ASSIGNMENT PROCEDURES (MB DOCKET NO. 09-52)**

**Legal Authority:** 47 USC 151 and 152; 47 USC 154(i); 47 USC 303; 47 USC 307 and 309(j)

**Abstract:** This proceeding was commenced to consider a number of changes to the Commission's rules and procedures to carry out the statutory goal of distributing radio service fairly and equitably, and to increase the transparency and efficiency of radio broadcast auction and licensing processes. In the NPRM, comment is sought on specific proposals regarding the procedures used to award commercial broadcast spectrum in the AM and FM broadcast bands. The accompanying Report and Order adopts rules that provide tribes a priority to obtain broadcast radio licenses in tribal communities. The Commission concurrently adopted a Further Notice of Proposed Rulemaking seeking comment on whether to extend the tribal priority to tribes that do not possess tribal land.

The Commission adopted a second FNPRM in order to develop a more comprehensive record regarding measures to assist Federally recognized Native American tribes and Alaska native villages in obtaining commercial FM station authorizations. In the second R&O, the Commission adopted a number of procedures, procedural changes, and clarifications of existing rules and procedures, designed to promote ownership and programming diversity, especially by Native American tribes, and to promote the initiation and retention of radio service in and to smaller communities and rural areas.

**Abstract:** Diversity and competition are longstanding and important Commission goals. The measures proposed, as well as those adopted in this proceeding, are intended to promote diversity of ownership of media outlets. In the Report and Order and third FNPRM, measures are enacted to increase participation in the broadcasting industry by new entrants and small businesses, including minority- and women-owned businesses. In the Report and Order and fourth FNPRM, the Commission adopts improvements to its data collection in order to obtain an accurate and comprehensive assessment of minority and female broadcast ownership in the United States. The Memorandum Opinion & Order addressed petitions for Reconsideration of the rules, and also sought comment on a proposal to expand the reporting requirements to non attributable interests.

**526. • AMENDMENT OF THE COMMISSION'S RULES RELATED TO RETRANSMISSION CONSENT;  
MB DOCKET NO. 10–71**

**Legal Authority:** 47 USC 154; 47 USC 325; 47 USC 534

**Abstract:** Cable systems and other multichannel video programming distributors are not entitled to retransmit a broadcast station's signal without the station's consent. This consent is known as “retransmission consent.” Since Congress enacted the retransmission consent regime in 1992, there have been significant changes in the video programming marketplace. In this proceeding, comment is sought on a series of proposals to streamline and clarify the Commission's rules concerning or affecting retransmission consent negotiations.

**527. • VIDEO DESCRIPTION: IMPLEMENTATION OF THE TWENTY–FIRST CENTURY  
COMMUNICATIONS AND VIDEO ACCESSIBILITY ACT OF 2010; MB DOCKET NO.11–43**

**Legal Authority:** 47 USC 151; 47 USC 152; 47 USC 154(i); 47 USC 303

**Abstract:** The Twenty-First Century Communications and Video Accessibility Act of 2010 (“CVAA”) requires reinstatement of the video description rules adopted by the Commission in 2000. “Video description,” which is the insertion of narrated descriptions of a television program's key visual elements into natural pauses in the program's dialogue, makes video programming more accessible to individuals who are blind or visually impaired. This proceeding was initiated to enable compliance with the CVAA.

**Legal Authority:** 47 USC 154(i); 47 USC 158(c)(2); 47 USC 159(c)(2); 47 USC 303(r); 5 USC 5514; 31 USC 7701(c)(1)

**Abstract:** This Notice of Proposed Rulemaking proposes revisions intended to make the Commission's Registration System (CORES) more feature-friendly and improve the Commission's ability to comply with various statutes that govern debt collection and the collection of personal information by the federal government. The proposed modifications to CORES partly include: Requiring entities and individuals to rely primarily upon a single FRN that may, at their discretion, be linked to subsidiary or associated accounts; allowing entities to identify multiple points of contact; eliminating some of our exceptions to the requirement that entities and individuals provide their Taxpayer Identification Number (TIN) at the time of registration; requiring FRN holders to provide their e-mail addresses; modifying CORES log-in procedures; adding attention flags and automated notices that would inform FRN holders of their financial standing before the Commission; and adding data fields to enable FRN holders to indicate their tax-exempt status and notify the Commission of pending bankruptcy proceedings.

**530. REVISION OF THE RULES TO ENSURE COMPATIBILITY WITH ENHANCED 911 EMERGENCY CALLING SYSTEMS**

**Legal Authority:** 47 USC 134(i); 47 USC 151; 47 USC 201; 47 USC 208; 47 USC 215; 47 USC 303; 47 USC 309

**Abstract:** In a series of orders in several related proceedings issued since 1996, the Federal Communications Commission has taken action to improve the quality and reliability of 911 emergency services for wireless phone users. Rules have been adopted governing the availability of basic 911 services and the implementation of enhanced 911 (E911) for wireless services.

#### **534. IMPLEMENTATION OF 911 ACT**

**Legal Authority:** 47 USC 151; 47 USC 154(i) and 154(j); 47 USC 157; 47 USC 160; 47 USC 202; 47 USC 208; 47 USC 210; 47 USC 214; 47 USC 251(e); 47 USC 301; 47 USC 303; 47 USC 308 to 309(j); 47 USC 310

**Abstract:** This proceeding is separate from the Commission's proceeding on Enhanced 911 Emergency Systems (E911) in that it is intended to implement provisions of the Wireless Communications and Public Safety Act of 1999 through the promotion of public safety by the deployment of a seamless, nationwide emergency communications infrastructure that includes wireless communications services. More specifically, a chief goal of the proceeding is to ensure that all emergency calls are routed to the appropriate local emergency authority to provide assistance. The E911 proceeding goes a step further and is aimed at improving the effectiveness and reliability of wireless 911 dispatchers with additional information on wireless 911 calls.

### **535. COMMISSION RULES CONCERNING DISRUPTIONS TO COMMUNICATIONS**

**Legal Authority:** 47 USC 151; 47 USC 154(i); 47 USC 303(r); 47 USC 615a–1

**Abstract:** The Report and Order extended the Commission's disruption reporting requirements to communications providers who are not wireline carriers. The Commission also streamlined compliance with the reporting requirements through electronic filing with a “fill in the blank” template and by simplifying the application of that rule. In addition, the Commission delegated authority to the Chief, Office of Engineering and Technology, to make the revisions to the filing system and template necessary to improve the efficiency of reporting and to reduce, where reasonably possible, the time for providers to prepare, and for the Commission staff to review, the communications disruption reports required to be filed. Such authority was subsequently delegated to the Chief of the Public Safety and Homeland Security Bureau. These actions will allow the Commission to obtain the necessary information regarding service disruptions in an efficient and expeditious manner and to achieve significant concomitant public interest benefits.

The Commission received nine petitions for reconsideration in this proceeding, which are pending.

The Further Notice of Proposed Rulemaking (NPRM) expands the record in the proceeding to focus specifically on the unique communications needs of airports, including wireless and satellite

communications. In this regard, the Commission requested comment on the additional types of airport communications (e.g., wireless, satellite) that should be required to file service disruption reports—particularly from a homeland security and defense perspective. These types of airport communications may include, for example, communications that are provided by ARINC as well as commercial communications (e.g., air-to-ground and ground-to-air telephone communications) as well as intra-airline commercial links. The Commission also requested comment on whether the outage-reporting requirements for special facilities should be extended to cover general aviation airports (GA) and, if so, what the applicable threshold criteria should be.

### 537. STOLEN VEHICLE RECOVERY SYSTEM (SVRS)

**Legal Authority:** 47 USC 151 and 152; 47 USC 154(i); 47 USC 301 to 303

**Abstract:** The Report and Order amends 47 CFR 90.20(e)(6) governing stolen vehicle recovery system operations at 173.075 MHz, by increasing the radiated power limit for narrowband base stations; increasing the power output limit for narrowband base stations; increasing the power output limit for narrowband mobile transceivers; modifying the base station duty cycle; increasing the tracking duty cycle for mobile transceivers; and retaining the requirement for TV channel 7 interference studies and that such studies must be served on TV channel 7 stations.

### 538. COMMERCIAL MOBILE ALERT SYSTEM

**Legal Authority:** PL 109–347 title VI; EO 13407; 47 USC 151; 47 USC 154(i)

**Abstract:** In the Notice of Proposed Rulemaking (NPRM), the Commission initiated a comprehensive rulemaking to establish a commercial mobile alert system under which commercial mobile service providers may elect to transmit emergency alerts to the public. The Commission has issued three orders

adopting CMAS rules as required by statute. Issues raised in an FNPRM regarding testing requirements for non-commercial educational and public broadcast television stations remain outstanding.

#### **540. WIRELESS E911 LOCATION ACCURACY REQUIREMENTS; PS DOCKET NO. 07–114**

**Legal Authority:** 47 USC 151; 47 USC 154; 47 USC 332

**Abstract:** Related to the proceedings in which the FCC has previously acted to improve the quality of all emergency services, this action requires wireless carriers to take steps to provide more specific automatic location information in connection with 911 emergency calls to Public Safety Answering Points (PSAPs) in areas where wireless carriers have not done so in the past. Wireless licensees must now satisfy amended Enhanced 911 location accuracy standards at either a county-based or a PSAP-based geographic level.

**544. IMPLEMENTATION OF THE COMMERCIAL SPECTRUM ENHANCEMENT ACT (CSEA) AND  
MODERNIZATION OF THE COMMISSION'S COMPETITIVE BIDDING RULES AND PROCEDURES  
(WT DOCKET NO. 05-211)****Legal Authority:** 15 USC 79; 47 USC 151; 47 USC 154(i) and (j); 47 USC 155; 47 USC 155(c); 47 USC 157; 47 USC 225; 47 USC 303(r); 47 USC 307; 47 USC 309; 47 USC 309(j); 47 USC 325(e); 47 USC 334; 47 USC 336; 47 USC 339; 47 USC 554

**Abstract:** This proceeding implements rules and procedures needed to comply with the recently enacted Commercial Spectrum Enhancement Act (CSEA). It establishes a mechanism for reimbursing federal agencies out of spectrum auction proceeds for the cost of relocating their operations from certain “eligible frequencies” that have been reallocated from Federal to non-Federal use. It also seeks to improve the Commission's ability to achieve Congress's directives with regard to designated entities and to ensure that, in accordance with the intent of Congress, every recipient of its designated entity benefits is an entity that uses its licenses to directly provide facilities-based telecommunications services for the benefit of the public.

**545. FACILITATING THE PROVISION OF FIXED AND MOBILE BROADBAND ACCESS, EDUCATIONAL AND OTHER ADVANCED SERVICES IN THE 2150–2162 AND 2500–2690 MHZ BANDS**

**Legal Authority:** 47 USC 154; 47 USC 301 to 303; 47 USC 307; 47 USC 309; 47 USC 332; 47 USC 336 and 337

**Abstract:** The Commission seeks comment on whether to assign Educational Broadband Service (EBS) spectrum in the Gulf of Mexico. It also seeks comment on how to license unassigned and available EBS spectrum. Specifically, we seek comment on whether it would be in the public interest to develop a scheme for licensing unassigned EBS spectrum that avoids mutual exclusivity; we ask whether EBS eligible entities could participate fully in a spectrum auction; we seek comment on the use of small business size standards and bidding credits for EBS if we adopt a licensing scheme that could result in mutually exclusive applications; we seek comment on the proper market size and size of spectrum blocks for new EBS licenses; and we seek comment on issuing one license to a State agency designated by the Governor to be the spectrum manager, using frequency coordinators to avoid mutually exclusive EBS applications, as well as other alternative licensing schemes. The Commission must develop a new licensing scheme for EBS in order to achieve the Commission's goal of facilitating the development of new and innovative wireless services for the benefit of students throughout the nation.

## **547. SERVICE RULES FOR ADVANCED WIRELESS SERVICES IN THE 2155-2175 MHZ BAND**

**Legal Authority:** 47 USC 151 and 152; 47 USC 154(i); 47 USC 157; 47 USC 160; 47 USC 201; 47 USC 214; 47 USC 301

**Abstract:** This proceeding explores the possible uses of the 2155-2175 MHz frequency band (AWS-3) to support the introduction of new advanced wireless services, including third generations as well as future generations of wireless systems. Advanced wireless systems could provide for a wide range of voice data and broadband services over a variety of mobile and fixed networks.

The Notice of Proposed Rulemaking (NPRM) sought comment on what service rules should be adopted in the AWS-3 band. We requested comment on rules for licensing this spectrum in a manner that will permit it to be fully and promptly utilized to bring advanced wireless services to American consumers. Our objective is to allow for the most effective and efficient use of the spectrum in this band, while also encouraging development of robust wireless broadband services. We proposed to apply our flexible, market-oriented rules to the band in order to meet this objective.

Thereafter, the Commission released a Further Notice of Proposed Rulemaking (FNPRM), seeking comment on the Commission's proposed AWS-3 rules, which include adding 5 megahertz of spectrum (2175-80 MHz) to the AWS-3 band, and requiring licensees of that spectrum to provide—using up to 25 percent of its wireless network capacity—free, two-way broadband Internet service at engineered data rates of at least 768 kbps downstream.

**548. SERVICE RULES FOR ADVANCED WIRELESS SERVICES IN THE 1915 TO 1920 MHZ, 1995 TO 2000 MHZ, 2020 TO 2025 MHZ, AND 2175 TO 2180 MHZ BANDS**

**Legal Authority:** 47 USC 151 and 152; 47 USC 154(i); 47 USC 157; 47 USC 160; 47 USC 201; 47 USC 214; 47 USC 301; . . .

**Abstract:** This proceeding explores the possible uses of the 1915-1920 MHz, 1995-2000 MHz, 2020-2025 MHz, and 2175-2180 MHz Bands (collectively AWS-2) to support the introduction of new advanced wireless services, including third generations as well as future generations of wireless systems.

Advanced wireless systems could provide for a wide range of voice data and broadband services over a variety of mobile and fixed networks.

The Notice of Proposed Rulemaking (NPRM) sought comment on what service rules should be adopted in the AWS-2 band. We requested comment on rules for licensing this spectrum in a manner that will permit it to be fully and promptly utilized to bring advanced wireless services to American consumers. Our objective is to allow for the most effective and efficient use of the spectrum in this band, while also encouraging development of robust wireless broadband services.

Thereafter, the Commission released a Further Notice of Proposed Rulemaking (FNPRM), seeking comment on the Commission's proposed rules for the 1915-1920 MHz and 1995-2000 MHz bands. In addition, the Commission proposed to add 5 megahertz of spectrum (2175-80 MHz band) to the 2155-2175 MHz band, and would require the licensee of the 2155-2180 MHz band to provide—using up to 25 percent of its wireless network capacity—free, two-way broadband Internet service at engineered data rates of at least 768 kbps downstream.

**549. RULES AUTHORIZING THE OPERATION OF LOW POWER AUXILIARY STATIONS IN THE 698-806 MHZ BAND, WT DOCKET NO. 08-166; PUBLIC INTEREST SPECTRUM COALITION, PETITION FOR RULEMAKING REGARDING LOW POWER AUXILIARY**

**Legal Authority:** 47 USC 151 and 152; 47 USC 154(i) and 154(j); 47 USC 301 and 302(a); 47 USC 303; 47 USC 303(r); 47 USC 304; 47 USC 307 to 309; 47 USC 316; 47 USC 332; 47 USC 336 and 337

**Abstract:** In the Notice of Proposed Rulemaking and Order, to facilitate the DTV transition the Commission tentatively concludes to amend its rules to make clear that the operation of low power auxiliary stations within the 700 MHz Band will no longer be permitted after the end of the DTV transition. The Commission also tentatively concludes to prohibit the manufacture, import, sale, offer for sale, or shipment of devices that operate as low power auxiliary stations in the 700 MHz Band. In addition, for those licensees that have obtained authorizations to operate low power auxiliary stations in spectrum that includes the 700 MHz Band beyond the end of the DTV transition, the Commission tentatively concludes that it will modify these licenses so as not to permit such operations in the 700 MHz Band after February 17, 2009. The Commission also seeks comment on issues raised by the Public Interest Spectrum Coalition (PISC) in its informal complaint and petition for rulemaking.

The Commission also imposes a freeze on the filing of new license applications that seek to operate on any 700 MHz Band frequencies (698-806 MHz) after the end of the DTV transition, February 17, 2009, as

well as on granting any request for equipment authorization of low power auxiliary station devices that would operate in any of the 700 MHz Band frequencies. The Commission also holds in abeyance, until the conclusion of this proceeding, any pending license applications and equipment authorization requests that involve operation of low power auxiliary devices on frequencies in the 700 MHz Band after the end of the DTV transition.

On January 15, 2010, the Commission released a Report and Order that prohibits the distribution and sale of wireless microphones that operate in the 700 MHz Band (698-806 MHz, channels 52-69) and includes a number of provisions to clear these devices from that band. These actions help complete an important part of the DTV transition by clearing the 700 MHz Band to enable the rollout of communications services for public safety and the deployment of next generation wireless devices.

On January 15, 2010, the Commission also released a Further Notice of Proposed Rulemaking seeking comment on the operation of low power auxiliary stations, including wireless microphones, in the core TV bands (channels 2-51, excluding channel 37). Among the issues the Commission is considering in the Further Notice are revisions to its rules to expand eligibility for licenses to operate wireless microphones under part 74; the operation of wireless microphones on an unlicensed basis in the core TV bands under part 15; technical rules to apply to low power wireless audio devices, including wireless microphones, operating in the core TV bands on an unlicensed basis under part 15 of the rules; and long term solutions to address the operation of wireless microphones and the efficient use of the core TV spectrum.

**556. 2004 AND 2006 BIENNIAL REGULATORY REVIEWS—STREAMLINING AND OTHER REVISIONS OF THE COMMISSION'S RULES GOVERNING CONSTRUCTION, MARKING, AND LIGHTING OF ANTENNA STRUCTURES**

**Legal Authority:** 47 USC 154(i)–(j) and 161; 47 USC 303(q)

**Abstract:** In this NPRM, in WT Docket No. 10-88, the Commission seeks comment on revisions to part 17 of the Commission's rules governing construction, marking, and lighting of antenna structures. The Commission initiated this proceeding to update and modernize the part 17 rules. These proposed revisions are intended to improve compliance with these rules and allow the Commission to enforce them more effectively, helping to better ensure the safety of pilots and aircraft passengers nationwide. The proposed revisions would also remove outdated and burdensome requirements without compromising the Commission's statutory responsibility to prevent antenna structures from being hazards or menaces to air navigation.

**558. FIXED AND MOBILE SERVICES IN THE MOBILE SATELLITE SERVICE BANDS AT 1525–1559 MHZ AND 1626.5–1660.5 MHZ, 1610–1626.5 MHZ AND 2483.5–2500 MHZ, AND 2000–2020 MHZ AND 2180–2200 MHZ**

**Legal Authority:** 47 USC 151 and 154; 47 USC 303 and 310

**Abstract:** The Commission proposes steps to make additional spectrum available for new investment in mobile broadband networks while ensuring that the United States maintains robust mobile satellite service capabilities. Mobile broadband is emerging as one of America's most dynamic innovation and economic platforms. Yet tremendous demand growth will soon test the limits of spectrum availability. 90 megahertz of spectrum allocated to the Mobile Satellite Service (MSS) — in the 2 GHz band, Big LEO band, and L-band — are potentially available for terrestrial mobile broadband use. The Commission seeks to remove regulatory barriers to terrestrial use, and to promote additional investments, such as those recently made possible by a transaction between Harbinger Capital Partners and SkyTerra Communications, while retaining sufficient market-wide MSS capability. The Commission proposes to add co-primary Fixed and Mobile allocations to the 2 GHz band, consistent with the International Table of Allocations. This allocation modification is a precondition for more flexible licensing of terrestrial services within the band. Second, the Commission proposes to apply the Commission's secondary market policies and rules applicable to terrestrial services to all transactions involving the use of MSS bands for terrestrial services in order to create greater predictability and regulatory parity with bands licensed for terrestrial mobile broadband service. The Commission also requests comment on further steps we can take to increase the value, utilization, innovation, and investment in MSS spectrum generally.

## **559. IMPLEMENTATION OF THE UNIVERSAL SERVICE PORTIONS OF THE 1996**

### **TELECOMMUNICATIONS ACT**

**Legal Authority:** 47 USC 151 et seq

**Abstract:** The goals of Universal Service, as mandated by the 1996 Act, are to promote the availability of quality services at just, reasonable, and affordable rates; increase access to advanced telecommunications services throughout the Nation; advance the availability of such services to all consumers, including those in low income, rural, insular, and high cost areas at rates that are reasonably comparable to those charged in urban areas. In addition, the 1996 Act states that all providers of telecommunications services should contribute to Federal universal service in some equitable and nondiscriminatory manner; there should be specific, predictable, and sufficient Federal and State mechanisms to preserve and advance universal service; all schools, classrooms, health care providers, and libraries should, generally, have access to advanced telecommunications services; and finally, that the Federal-State Joint Board and the Commission should determine those other principles that, consistent with the 1996 Act, are necessary to protect the public interest. More recently, modernization

efforts for continuous improvements to the universal service programs are being realized consistent and in keeping with the goals envisioned by the National Broadband Plan.

On February 19, 2010, the Commission released an Order and Notice of Proposed Rulemaking that enabled schools that receive funding from the E-rate program to allow members of the general public to use the schools' Internet access during non-operating hours through funding year 2010 (July 1, 2010 through June 30, 2010) and sought comment on revising its rules to make this change permanent.

On March 18, 2010, the Commission issued a Report & Order and Memorandum Opinion & Order. In this order, the Commission addressed an inequitable asymmetry in the Commission's current rules governing the receipt of universal service high-cost local switching support (LSS) by small incumbent local exchange carriers (LECs). By modifying the Commission's rules to permit incumbent LECs that lose lines to receive additional LSS when they cross a threshold, the order provides LSS to all small LECs on the same basis. Nothing in the order is intended to address the long-term role of LSS in the Commission's high-cost universal service policies, which the Commission is considering as part of comprehensive universal service reform. April 16, 2010, the Commission issued an Order and NPRM addressing high-cost universal service support for non-rural carriers serving insular areas. In the NPRM, the Commission sought comment on amending its rules to provide additional low-income support in Puerto Rico.

On April 21, 2010, the Commission issued a Notice of Inquiry and Notice of Proposed Rulemaking, the first in a series of proceedings to kick off universal service support reform that is key to making broadband service available for millions of Americans who lack access. This NOI and NPRM sought comment on first steps to reform the distribution of universal service high-cost support.

## **560. 2000 BIENNIAL REGULATORY REVIEW—TELECOMMUNICATIONS SERVICE QUALITY**

### **REPORTING REQUIREMENTS**

**Legal Authority:** 47 USC 154(i) and 154(j); 47 USC 201(b); 47 USC 303(r); 47 USC 403

**Abstract:** This NPRM proposes to eliminate our current service quality reports (ARMIS Report 43-05 and 43-06) and replace them with a more consumer-oriented report. The NPRM proposes to reduce the reporting categories from more than 30 to 6, and addresses the needs of carriers, consumers, state public utility commissions, and other interested parties.

## **561. ACCESS CHARGE REFORM AND UNIVERSAL SERVICE REFORM**

**Legal Authority:** 47 USC 151; 47 USC 154(i) and 154(j); 47 USC 201 to 205; 47 USC 254; 47 USC 403

**Abstract:** On October 11, 2001, the Commission adopted an Order reforming the interstate access charge and universal service support system for rate-of-return incumbent carriers. The Order adopts three principal reforms. First, the Order modifies the interstate access rate structure for small carriers to align it more closely with the manner in which costs are incurred. Second, the Order removes implicit support for universal service from the rate structure and replaces it with explicit, portable support. Third, the Order permits small carriers to continue to set rates based on the authorized rate of return of 11.25 percent. The Order became effective on January 1, 2002, and the support mechanism established by the Order was implemented beginning July 1, 2002.

The Commission also adopted a Further Notice of Proposed Rulemaking (FNPRM) seeking additional comment on proposals for incentive regulation, increased pricing flexibility for rate-of-return carriers, and proposed changes to the Commission's "all-or-nothing" rule. Comments on the FNPRM were due on February 14, 2002, and reply comments on March 18, 2002.

On February 12, 2004, the Commission adopted a Second Report and Order resolving several issues on which the Commission sought comment in the FNPRM. First, the Commission modified the "all-or-nothing" rule to permit rate-of-return carriers to bring recently acquired price cap lines back to rate-of-return regulation. Second, the Commission granted rate-of-return carriers the authority immediately to provide geographically deaveraged transport and special access rates, subject to certain limitations. Third, the Commission merged Long Term Support (LTS) with Interstate Common Line Support (ICLS).

The Commission also adopted a Second FNPRM seeking comment on two specific plans that propose establishing optional alternative regulation mechanisms for rate-of-return carriers. In conjunction with the

consideration of those alternative regulation proposals, the Commission sought comment on modification that would permit a rate-of-return carrier to adopt an alternative regulation plan for some study areas, while retaining rate-of-return regulation for other of its study areas. Comments on the Second FNPRM were due on April 23, 2004, and May 10, 2004.

## **562. NATIONAL EXCHANGE CARRIER ASSOCIATION PETITION**

**Legal Authority:** 47 USC 151 and 152; 47 USC 201 and 202; . . .

**Abstract:** In a Notice of Proposed Rulemaking (NPRM) released on July 19, 2004, the Commission initiated a rulemaking proceeding to examine the proper number of end user common line charges

(commonly referred to as subscriber line charges or SLCs) that carriers may assess upon customers that obtain derived channel T-1 service where the customer provides the terminating channelization equipment and upon customers that obtain Primary Rate Interface (PRI) Integrated Service Digital Network (ISDN) service.

## 563. IP–ENABLED SERVICES

**Legal Authority:** 47 USC 151 and 152; . . .

**Abstract:** The notice seeks comment on ways in which the Commission might categorize IP-enabled services for purposes of evaluating the need for applying any particular regulatory requirements. It poses questions regarding the proper allocation of jurisdiction over each category of IP-enabled service. The notice then requests comment on whether the services comprising each category constitute “telecommunications services” or “information services” under the definitions set forth in the Act. Finally, noting the Commission’s statutory forbearance authority and title I ancillary jurisdiction, the notice describes a number of central regulatory requirements (including, for example, those relating to access charges, universal service, E911, and disability accessibility), and asks which, if any, should apply to each category of IP-enabled services.

On June 16, 2005, the Commission published in the Federal Register notice that public information collections set forth in the First Report and Order were being submitted for review to the office of management and budget.

On July 27, 2005, the Commission published in the Federal Register notice that the information collection requirements adopted in the First Report and Order were approved in OMB No. 3060-1085 and would become effective on July 29, 2005.

On August 31, 2005, the Commission published in the Federal Register notice of the comment cycle for three Petitions for Reconsideration and/or Clarification of the First Report and Order.

On July 10, 2006, the Commission published in the Federal Register notice that it had adopted on June 21, 2006, rules that make interim modifications to the existing approach for assessing contributions to the Federal universal service fund (USF or Fund) in order to provide stability while the Commission continues to examine more fundamental reform.

On June 8, 2007, the Commission published in the Federal Register notice that it had adopted on April 2, 2007, an item strengthening the Commission's rules to protect the privacy of customer proprietary network information (CPNI) that is collected and held by providers of communications services, and a further notice of proposed rulemaking seeking comment on what steps the Commission should take, if any, to secure further the privacy of customer information.

On August 6, 2007, the Commission published in the Federal Register notice that it had adopted on May 31, 2007, and item extending the disability access requirements that currently apply to telecommunications service providers and equipment manufacturers under section 255 of the Communications Act of 1934, as amended, to providers of "interconnected voice over Internet Protocol (VoIP) services," as defined by the Commission, and to manufacturers of specially designed equipment

used to provide those services. In addition, the Commission extended the Telecommunications Relay Services (TRS) requirements contained in its regulations to interconnected VoIP providers.

On August 7, 2007, the Commission published in the Federal Register a notice that a petition for reconsideration of the CPNI order described above had been filed.

On August 16, 2007, the Commission published in the Federal Register notice that it had adopted on August 2, 2007, an item amending the Commission's Schedule of Regulatory Fees by, inter alia, incorporating regulatory fee payment obligations for interconnected VoIP service providers, which shall become effective November 15, 2007, which is 90 days from date of notification to Congress.

On November 1, 2007, the Commission gave notice that it granted in part, denied in part, and sought comment on petitions filed by the Voice on the Net Coalition, the United States Telecom Association, and Hamilton Telephone Company seeking a stay or waiver of certain aspects of the Commission's VoIP Telecommunications Relay Services (TRS) Order (72 FR 61813; 72 FR 61882).

On December 13, 2007, the Commission announced the effective date of its revised CPNI rules (72 FR 70808).

On December 6, 2007, OMB approved the public information collection pursuant to the Paperwork Reduction Act of 1995 for the Commission's CPNI rules (72 FR 72358).

On February 21, 2008, the Commission published in the Federal Register notice that the Commission adopted rules extending local number portability obligations and numbering administration support obligations to interconnected VoIP services. The Commission also explained it had responded to the District of Columbia Circuit Court of Appeals stay of the Commission's Intermodal Number Portability Order by publishing a Final Regulatory Flexibility Act (73 FR 9463; R&O 02/21/2008).

On February 21, 2008, the Commission published in the Federal Register notice that it sought comment on other changes to its LNP and numbering related rules, including whether to extend such rules to interconnected VoIP providers (73 FR 9507).

On August 6, 2007, the Commission published in the Federal Register notice that it had extended Telecommunications Relay Services (TRS) regulations to interconnected VoIP providers and extended certain disability access requirements to interconnected VoIP providers and to manufacturers of specially designed equipment used to provide such service (72 FR 43546).

On May 15, 2008, the Commission's Consumer and Governmental Affairs Bureau (CGB) published in the Federal Register notice that it had granted interconnected VoIP providers an extension of time to route 711-dialed calls to an appropriate telecommunications relay service (TRS) center in certain circumstances (73 FR 28057). On July 29, 2009, CGB published notice in the Federal Register that it was granting another extension. (74FR 37624)

On August 7, 2009, the Commission published a notice in the Federal Register that it had amended its rules so that providers of interconnected VoIP service must comply with the same discontinuance rules as domestic non-dominant telecommunications carriers. (74 FR 39551)

#### **564. ESTABLISHING JUST AND REASONABLE RATES FOR LOCAL EXCHANGE CARRIERS (WC DOCKET NO. 07-135)**

**Legal Authority:** Not Yet Determined

**Abstract:** The Federal Communications Commission (Commission) is examining whether its existing rules governing the setting of tariffed rates by local exchange carriers (LECs) provide incentives and

opportunities for carriers to increase access demand endogenously with the result that the tariff rates are no longer just and reasonable. The Commission tentatively concluded that it must revise its tariff rules so that it can be confident that tariffed rates remain just and reasonable even if a carrier experiences or induces significant increases in access demand. The Commission seeks comment on the types of activities that are causing the increases in interstate access demand and the effects of such demand increases on the cost structures of LECs. The Commission also seeks comment on several means of ensuring just and reasonable rates going forward. The NPRM invites comment on potential traffic stimulation by rate-of-return LECs, price cap LECs, and competitive LECs, as well as other forms of intercarrier traffic stimulation. Comments were received on December 17, 2007, and reply comments were received on January 16, 2008.

On February 8, 2011, the Commission adopted a Further Notice of Proposed Rulemaking seeking comment on proposed rule revisions to address access stimulation. The Commission sought comment on a proposal to require rate-of-return LECs and competitive LECs to file revised tariffs if they enter into or have existing revenue sharing agreements. The proposed tariff filing requirements vary depending on the type of LEC involved. The Commission also sought comment on other record proposals and on possible rules for addressing access stimulation in the context of intra-MTA call terminations by CMRS providers. Comments were filed on April 1, 2011, and reply comments were filed on April 18, 2011.

## 565. JURISDICTIONAL SEPARATIONS

**Legal Authority:** 47 USC 151; 47 USC 154(i) and 154(j); 47 USC 205; 47 USC 221(c); 47 USC 254; 47 USC 403; 47 USC 410

**Abstract:** Jurisdictional separations is the process, pursuant to part 36 of the Commission's rules, by which incumbent local exchange carriers apportion regulated costs between the intrastate and interstate jurisdictions. In 1997, the Commission initiated a proceeding seeking comment on the extent to which legislative changes, technological changes, and market changes warrant comprehensive reform of the separations process. In 2001, the Commission adopted the Federal-State Joint Board on Jurisdictional Separations' recommendation to impose an interim freeze of the part 36 category relationships and jurisdictional cost allocation factors for a period of five years, pending comprehensive reform of the part 36 separations rules. In 2006, the Commission adopted an Order and Further Notice of Proposed Rulemaking, which extended the separations freeze for a period of three years and sought comment on comprehensive reform. In 2009, the Commission adopted a Report and Order extending the separations freeze an additional year to June 2010. In 2010, the Commission adopted a Report and Order extending the separations freeze for an additional year to June 2011. In 2011, the Commission adopted a Report and Order extending the separations freeze for an additional year to June 2012.

**566. SERVICE QUALITY, CUSTOMER SATISFACTION, INFRASTRUCTURE AND OPERATING  
DATA GATHERING (WC DOCKET NOS. 08–190, 07–139, 07–204, 07–273, 07–21)**

**Legal Authority:** 47 USC 151 to 155; 47 USC 160 and 161; 47 USC 20 to 205; 47 USC 215; 47 USC 218 to 220; 47 USC 251 to 271; 47 USC 303(r) and 332; 47 USC 403; 47 USC 502 and 503

**Abstract:** This NPRM tentatively proposes to collect infrastructure and operating data that is tailored in scope to be consistent with Commission objectives from all facilities-based providers of broadband and telecommunications. Similarly, the NPRM also tentatively proposes to collect data concerning service quality and customer satisfaction from all facilities-based providers of broadband and telecommunications. The NPRM seeks comment on the proposals, on the specific information to be collected, and on the mechanisms for collecting information.

## **568. PRESERVING THE OPEN INTERNET; BROADBAND INDUSTRY PRACTICES**

**Legal Authority:** 47 USC 151; 47 USC 152; 47 USC 154 (i)–(j); 47 USC 201(b)

**Abstract:** In 2009, the FCC launched a public process to determine whether and what actions might be necessary to preserve the characteristics that have allowed the Internet to grow into an indispensable platform supporting our nation's economy and civic life. After receiving input from more than 100,000 individuals and organizations and several public workshops, this process has made clear that the Internet has thrived because of its freedom and openness—the absence of any gatekeeper blocking lawful uses of the network or picking winners and losers online. The Open Internet Order builds on the bipartisan Internet Policy Statement the Commission adopted in 2005. The Order requires that all broadband providers are required to be transparent by disclosing their network management practices, performance, and commercial terms; fixed providers may not block lawful content, applications, services, or non-harmful devices; fixed providers may not unreasonably discriminate in transmitting lawful network traffic; mobile providers may not block access to lawful websites, or applications that compete with their voice or video telephony services; and all providers may engage in “reasonable network management,” such as managing the network to address congestion or security issues. The rules do not prevent broadband providers from offering specialized services, such as facilities-based VoIP; do not prevent providers from blocking unlawful content or unlawful transfers of content; and do not supersede any obligation or authorization a provider may have to address the needs of emergency communications or law enforcement, public safety, or national security authorities.

## **569. LOCAL NUMBER PORTABILITY PORTING INTERVAL AND VALIDATION REQUIREMENTS (WC DOCKET NO 07–244)**

**Legal Authority:** 47 USC 151; 47 USC 154(i); 47 USC 154(j); 47 USC 251; 47 USC 303(r)

**Abstract:** In 2007, the Commission released a Notice of Proposed Rulemaking in WC Docket No. 07-244. The Notice sought comment on whether the Commission should adopt rules specifying the length of the porting intervals or other details of the porting process. It also tentatively concluded that the Commission should adopt rules reducing the porting interval for wireline-to-wireline and intermodal simple port requests, specifically, to a 48-hour porting interval.

In the Local Number Portability Porting Interval and Validation Requirements First Report and Order and Further Notice of Proposed Rulemaking, released on May 13, 2009, the Commission reduced the porting interval for simple wireline and simple intermodal port requests, requiring all entities subject to its local number portability (LNP) rules to complete simple wireline-to-wireline and simple intermodal port requests within one business day. In a related Further Notice of Proposed Rulemaking (FNPRM), the Commission

sought comment on what further steps, if any, the Commission should take to improve the process of changing providers.

In the LNP Standard Fields Order, released on May 20, 2010, the Commission adopted standardized data fields for simple wireline and intermodal ports. The Order also adopts the NANC's recommendations for porting process provisioning flows and for counting a business day in the context of number porting.

**570. ELECTRONIC TARIFF FILING SYSTEM (ETFS); WC DOCKET NO. 10–141**

**Legal Authority:** 47 USC 151 and 154; 47 USC 201 to 205; 47 USC 218 and 222; 47 USC 225 to 226; 47 USC 228 and 254; 47 USC 403

**Abstract:** Section 402(b)(1)(A)(iii) of the Telecommunications Act of 1996 added section 204(a)(3) to the Communications Act of 1934, as amended, providing for streamlined tariff filings by local exchange carriers. On September 6, 1996, in an effort to meet the goals of the 1996 Act, the Commission released the Tariff Streamlining NPRM, proposing measures to implement the tariff streamlining requirements of

section 204(a)(3). Among other suggestions, the Commission proposed requiring LECs to file tariffs electronically.

The Commission began implementing the electronic filing of tariffs on January 31, 1997, when it released the Streamlined Tariff Order. On November 17, 1997, the Bureau made this electronic system, known as the Electronic Tariff Filing System, available for voluntary filing by incumbent LECs. The Bureau also announced that the use of ETFS would become mandatory for all incumbent LECs in 1998.

On May 28, 1998, in the ETFS Order, the Bureau established July 1, 1998, as the date after which incumbent LECs would be required to use ETFS to file tariffs and associated documents. The Commission deferred consideration of establishing mandatory electronic filing for non-incumbent LECs until the conclusion of a proceeding considering the mandatory detariffing of interstate long distance services.

In contrast to tariff filings by incumbent LECs, tariff filings by nondominant carriers are currently submitted via diskette, CD-ROM and/or paper, which are cumbersome and costly for the carrier, the Commission, and make it difficult for interested parties to review the documents. With this Report and Order the Commission requires mandatory electronic filing of tariffs and associated documents by all tariff filing entities.

**571. • IMPLEMENTATION OF SECTION 224 OF THE ACT; A NATIONAL BROADBAND PLAN FOR OUR FUTURE; WC DOCKET NO. 07–245, GN DOCKET NO. 09–51**

**Legal Authority:** 47 USC 151; 47 USC 154(i); 47 USC 154(j); 47 USC 224

**Abstract:** In 2010, the Commission released an Order and Further Notice of Proposed rulemaking which implemented certain pole attachment recommendations of the National Broadband Plan and sought comment with regard to others. On April 7, 2011, the Commission adopted a Report and Order and Order on Reconsideration that sets forth a comprehensive regulatory scheme for access to poles, and modifies existing rules for pole attachment rates and enforcement.
